Title (description) Netscape 2.02 for DAAC Liaison Workstations

Documents Affected	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference**

RTM Change ☐   **Start New Baseline** ☒

Problem

EP7 is moving into the System Test phase with the DAACs and requires Netscape 2.02 in order to run the dynamic web client (JEST). However, most of the DAAC liaison workstations do not use Netscape 2.02 and in fact are running a version of Netscape that does not support Java (Netscape 1.1).

Proposed Solution

Upgrade the DAAC liaison workstations to run Netscape 2.02.
